

# Civil Reminders

## AutoCAD® Civil 3D® Services

Civil Reminders has a demonstrated ability to utilize AutoCAD Civil 3D as shown through the Civil 3D Reminders blog. Let Civil Reminders bring customized services to your company in the form of:

- Training
- Mentoring
- Custom Subassemblies
- Custom Pipe Rules
- Custom Reports

We also provide Civil Design services including site layout and design, sewer design, street design, grading plans, basin grading and more.

## Cost Estimating

Civil Reminders has experience in performing cost estimates for projects ranging from road improvement projects to Buildings. Agencies we have experience doing cost estimates for include:

- NAVFAC
- US Army Corps of Engineers
- US Air Force
- City of Los Angeles, Public Works
- County of San Luis Obispo, Public Works

Estimate software utilized include US Cost Success Estimator, MCACES II, and Microsoft Excel worksheets.

## Quantity Takeoffs

By utilizing AutoCAD® Civil 3D® Civil Reminders produces accurate quantity takeoffs for site civil and highway projects. Civil Reminders has over 14 years experience in producing precise quantity takeoffs. We have the experience to produce accurate earthwork quantities, with ability to create cut/fill maps, mass haul diagrams and section cuts to meet your requirements.

Services for Civil Reminders are performed by Christopher Fugitt, PE, CCE, LEED AP
